Bid Specifications

Unit construction is stainless steel with 4" heavy-duty legs as standard, on Counter Mount and Pass-Through models. Top, sides and back (except pass-through model) are fully insulated with high quality insulation. Powermiser control allows unit to maintain standby level with 25% of heating capacity. Unit has four shelf height "microswitch" that is activated by placing a plate on the shelf, which provides ultimate finishing capabilities. All controls are solid-state with electrical fan-cooled compartment. Infrared heaters are easy to snap-in and out. All hardware is stainless steel. All units are single phase.

Model CMC Cheese Melter

Built Solid.

Reliability backed by APW Wyott's Warranty

- APW Wyott's Cheese Melters are backed by a 1-year Parts and Labor warranty.

- Cheese Melters are Certified by the following agencies:

APW Wyott Design Features

- Top, sides and back (except on pass-through models) are insulated with 1" of high quality insulation.
- When the master switch is "on," the unit stays "on" at 25% of heating capacity.
- Four shelf height "microswitch".
- Food placed on rack activates heat to 100% heat "on".
- The 24" and 36" models have one unit "on-off" switch and one red unit "on" light.
- The 48" model has one unit "on-off" switch and one red unit "on" light. There are also right-half heater "on" switches and right and left "on" lights. Use half, or all of the unit as needed.
- Solid-state controls.
- Fan-cooled electrical compartment
- Instant "on," instant "off" even heating, top quartz elements.

See reverse side for product specifications.
